

Robert Berlin
Associate

Georgia State University – Atlanta, GA
State University of New York – Buffalo, NY
Master of Architecture, MBA
Licensed Professional Architect, NCARB Certified

QUALIFICATIONS

Robert has over 18 years of architectural design and project management experience. Since he joined VCP&A last year, his experience on industrial projects continues to grow, adding to already broad experience on all phases of low and high-rise office, commercial, and residential new-build, expansion and renovation projects. Robert is fluent in several languages and has worked on projects in the United States and abroad. He understands the importance of team coordination and maintaining excellent relations with clients, contractors and officials, in order to fully meet design and local practice requirements on public and private projects.

EXPERIENCE OVERVIEW

VAUGHN, COLTRANE, PHARR & ASSOCIATES, (since 2003). Responsible for architectural design and project management, from conceptual to detail design, cost estimates and client contact on Office, Industrial and other project types. Projects include Greenfield RTE poultry plants for Wayne Farms and Fieldale Farms, a Greenfield Beef Processing plant, significant expansions to hatchery and tray pack plants, Wayne Farms expansion and Meyn N. America Corp. Headquarters.

GEORGIA PACIFIC, Technical Product Specialist (1 year). Prepared designs and CAD layouts for building-specific framing packages. Used G-P proprietary software, and developed own spreadsheets, to perform load flow and structural analyses, inventory assessment and optimization.

TVS INTERNATIONAL, Business Development Manager (5 years). Developed and maintained client contacts, in target markets and countries (mainly in Latin America), prepared proposals. Met with government and industry officials regarding projects and regulations.

ATLANTA HOUSING AUTHORITY (AHA), Project Manager (1 year). Worked with outside architects, engineers and contractors on comprehensive modernization, new construction and energy-related projects at low and high-rise developments. Led preparation of RFPs, designs, contracts and HUD coordination.

OSGOOD AND ASSOCIATES, Architect (1 year). In charge of design and working drawing production, CAD, and technical consultants on office interiors projects.

ROBERTSON/LOIA/ROOF, Architect/CAD Systems Manager (2 years). Prepared designs, working drawings and specs on commercial projects; surveyed existing retail centers for renovation and upgrade projects. Coordinated civil, structural, MEP.

JOHN PORTMAN & ASSOCIATES, Architect (4 years). Worked on all phases of large mixed-use projects (hotels, retail, high-rise office and housing) in the U.S. and abroad; programming, site design, building design, contract documents and construction administration.
